

GAI AT GW: AWARENESS, LITERACY AND INTEGRATION

A strategic plan for the
Instructional Core and LAI

Jason Torres, Ed.D.
Director, Strategic Digital
Learning Initiatives

Summer-Fall 2023

Plan and purpose

To layout a pathway for various LAI departments and units to contribute to GW's response to Generative Artificial Intelligence (AI). Address what it is, what it can do and what we (as a community) can do with it.

General teaming objectives:

1. Establish unified messaging
2. Bring interest LAI people together to build
3. Build a community of innovation
4. Build GAI literacy among faculty and staff

Exploration and perspective

2

3

4

Exploration and perspective

Over the past few months...

- Held 2 AI symposiums at Foggy Bottom
- Interviewed >20 faculty
- Responded to additional faculty and staff inquiries
- Seen intertwining between GAI and digital fluency
- Created a Faculty Senate EPT GAI subcommittee
- Drafted a plan for LAI that calls on all IC

Exploration and perspective

Common faculty concerns and messages

1. Teaching students about academic integrity
2. Cheating: Fear students won't do the work
3. Cheating: Detecting GAI produced work
4. Guidance: Policy, pedagogy, productivity
 - How to gain and where to use GAI?
 - Expecting more
5. The value of my effort
6. Redefined career entry level skills

Guiding councils

1

2

3

4

Guiding councils

University and LAI councils

Faculty GAI Innovation Council

AI subcommittee as part of the Education Policy and Technology (EPT) committee

LAI GAI and Digital Literacy Council

Driven by LAI-IC with decision-making staff across our partners.

Goal: Address the entanglement between GAI and digital literacies. Create and share knowledge. Inform each other on the kinds of requests incoming. Help to stimulate LAI as a center for GAI innovation and problem solving for the GW community.

Digital communications

2

3

4

Digital communications

Website under *Teaching with Creative Technology*

Section: Generative Artificial Intelligence (GAI) Literacy

- 21st century digital literacies
- GAI expertise
- GAI events
- GAI micro-learning series
- GAI faculty case studies at GW
- GAI guidelines
- GAI resources

Digital communications

Creating website content

July-August 2023

- Option 1: Utilize the Instructional Innovation Committee (IIC) members
 - Design and run a sprint to write content
 - Aim to accomplish over 2 weeks
- Option 2: Utilize a GAI tool to write content
- Have site established at Fall 2023 start. Continue to build on in the months to come.

Programmatic efforts for GAI literacy

Video series: Micro-learning, 3-7 min.

Two (2) micro-learning series:

General/Informative and **Deeper/Inspirational**

Potential topics:

- Where to start
- Redefined workforce entry
- Future work
- GAI and digital fluency
- Prompt engineering

Programmatic efforts for GAI literacy

Video series: Case study interviews, 15-30 min.

A produced video series highlighting the use of GAI at GW. This case studies series shines a light on certain people who are doing something innovative with GAI and/or digital fluency.

Potential topics:

- GAI and digital fluency convergence
- Faculty focused: GAI in teaching; GAI in research
- Student focused: GAI in learning
- Staff focused: GAI in the professions
- Blended stories: GAI in future work

Programmatic efforts for GAI literacy

Workshop (and training) series

Title: "*GAI: A partner in transformation*"

Topics:

- Academic integrity and GAI
- GAI for personalized learning (Fall 2023, SDLI+FD)
- Using GAI to support research writing (Fall 2023, SDLI+FD)
- Incorporating GAI into the online learning experience
- Using GAI to efficiently create instructional media
- Using GAI as your coding assistant (Fall 2023, JT)

Programmatic efforts for GAI literacy

General resource development for distribution

Created (GW)

Internal resources

- Types of GAI
- List, description, and purpose of GAI tools
- Pedagogical strategies for incorporating GAI into ID

Curated (non-GW)

External resources

- Existing: Responding to Generative GAI tools
- Potential learning activities
- Media – podcasts, videos

Programmatic efforts for GAI literacy

Quarterly symposiums

Sustain the GW AI open conversations first held in January 2023 and during April 2023. Work with various faculty, staff and other groups at GW to hold community conversations.

- Provost's office
- EPT GAI subcommittee
- GW Student Career Services
- Other interested faculty

Programmatic efforts for GAI literacy

GW Staff seminars – Potential ideas

Title: *“Getting started with prompting: Types and ways to do it”*

Audience: All GW faculty and staff

Title: *“Methods for leveraging LLMs in writing and critical thinking”*

Audience: First-year writing program faculty

Title: *“An introduction to GAI in workplace productivity”*

Audience: GW staff teams, career services

Programmatic efforts for GAI literacy

Competitions

Within CREATE Digital Studio (CDS) host Fall and Spring competitions for faculty, staff and students to generate solutions with GAI to given problems.
